Trainee Testimonials

First I thought that Virtual Classes will not be effective but when the classes started I felt I was wrong. It was very effective. Faculty are very cooperative and we can reach them at any time.

*- Sravanthi

I stay in the village. We do not have facilities for industry coaching. It is good that I am getting it in college itself. Now I am confident that I can get a good job. My parents are very proud to see me in this position.
